Guiseley Juniors Non Playing Membership Form - Guidance Notes

Data Protection

The information provided on this form will be used to administer the football and other related activities of the member. In some cases this may require the Club to disclose the information to the organisations we affiliate with and are governed by such as West Riding County FA, Wharfedale FA, relevant leagues and The English FA itself. In the event of a medical or child welfare issue arising the Club might have to disclose certain information to doctors or other medical specialists and/or the police, children's social care, the Courts and/or probation officers and potentially to legal and other advisers involved in an investigation. The person completing this form must ensure that everyone whose information is included on this form knows what will happen to their information and how it may be disclosed. **The club will not disclose the information provided to anyone else without first asking your permission to do so.**

Emergency Contact Details

These will only be used in the event of an emergency or incident when the person named in the application is involved.

Medical Information

It is very important to indicate any medical conditions, allergies and any disabilities the member may have to maximise their welfare during club activities. In addition, if the member requires medication or is receiving treatment then advising the club of this is equally important. This ensures that club officials who supervise activities can take them into account, act accordingly in the event of an issue and inform any medical specialists that may be contacted and/or called out.

Behaviour

Many aspects of the club are governed by the guidelines and policies of The FA, in particular those relating to standards of behaviour for managers/coaches/parents/carers/spectators, players and team officials as part of their RESPECT programme. Each member agrees to the highest standards by signing this form, however infrequent their involvement in activities.
