

2023/24 Registration Secretary's Report

Membership Data

Firstly some stats. Data correct as of 18/05/2024

Number of players registered to the club since start of the season: 843

Boys: 564 (67%)

Girls: 279 (33%)

12 members have left the club during the course of the season.

Current paid/confirmed members: 831

Development squads - U6 and below

The younger members are already included in the above numbers. However, it is worth paying attention to the size of the development squads. They are useful metrics for understanding the future potential and capacity of the club.

Boys: 29

Girls: 8

Note that girls' squad numbers tend to increase around U10/U11.

Start of Season Preparations

Because training and matches started at the beginning of September 2023, it was important that all players had signed up and were registered with the leagues by this time. Registrations opened on 26 June 2023 and by 31 July we had processed 81% of members. By 31 August this was 93%.

This is a fantastic achievement and one which was only possible through the support of all the team officials encouraging early registration. Thank you. I hope we can do the same this summer in preparation for the 2024/25 season.

Many thanks,

Richard Owen
